Location Africa Films Traditional Mobile Camp, Lewa Safari Marathon 2025

The Lewa Wildlife Conservancy in northern Kenya hosts the annual Lewa Safari Marathon, organized by Tusk in collaboration with Lewa and Safaricom. Every year, the spectators of these long-distance runners are its very wildlife: elephants, rhinos, Grevy's zebras, reticulated giraffes, impalas, warthogs, eland, lions, hyenas, buffalo, waterbucks, and many more. This marathon is recognized as one of the most challenging yet rewarding in the world. The course, set on the conservancy's dirt roads, takes runners across savanna plains, alongside riverbanks, and through acacia woodlands, all with the majestic backdrop of Mt. Kenya.

For the past 26 years, this marathon has become one of Kenya's most famous sporting events, uniquely supporting wildlife conservation and community development. On June 27, 2026, this exceptional experience will once again unite runners from around the globe as they traverse the Lewa Wildlife Conservancy.
